Green Energy Training Services (GETS) provides job training, case management, and job placement services to low-income adults experiencing barriers to employment. GETS offers two training modules: Core, which is a certified Apprenticeship Readiness Program for individuals who want to enter the union building trades, and Solar, for those seeking to enter the solar industry.

Our Belief

We believe that when people unleash their potential, they can grow, change, and make a difference in their communities.

Our Mission

It’s our mission to empower individuals to achieve environmental and economic sustainability for themselves and their communities.

Our Focus

We fulfill our mission by delivering career training and employment programs to underserved communities, with a focus on climate resilience and economic equity.

Green Energy Training Services Impacts:

- 40% of participants are re-entering the workforce after having been affected by the criminal justice system
- 50% of our participants are women
- 93% of participants graduate from GETS
- $19 average starting wage of a GETS graduate

Placement History:
California Youth Energy Services (CYES)

trains and employs local young adults to provide free energy efficiency and water conservation services to residents of their communities, launching the green careers of hundreds of youth.

California Youth Energy Services Impacts:

- $20M in lifetime utility bill savings
- 96% of youth improved their professional skills during CYES
- 150 youth of all backgrounds are hired each year
- 90% of youth said CYES increased the amount they speak up and talk about environmental issues

In their own words:

“I have become more professional, I have increased my amount of environmental knowledge, and I feel like I have made a difference in the world.” - CYES Alum

“The CYES program is a great program for both educating the community about energy conservation and giving young adults an opportunity for leadership - win-win!” - Green House Call Client
