

Rising Sun Center for Opportunity

Job Opening: Program Assistant (Los Banos/Madera)

About Us

We're deeply rooted at the intersection of equity, climate, and good, sustainable careers. In 1994, Rising Sun Center for Opportunity began as Rising Sun Energy Center in Santa Cruz, California. Much has changed as we've adapted and innovated to respond to the needs of our participants and communities, but today, we remain rooted in our origins, preparing people throughout the Bay Area and Central California who have been locked out of prosperity for good jobs and green pathways that offer economic equity and mobility while building a climate-resilient future for all.

The Climate Careers Program

Climate Careers offers a no-cost service to San Joaquin, Madera, and Merced County homes. This service, called a Green House Call, consists of an energy and water audit and installations of energy- and water-saving devices. Climate Careers employs youth Energy Specialists, ages 15-24 from low-income households, to perform these audits and installations. Our innovative mission combines residential energy efficiency services with youth employment, development, and pathways to success.

The Program Assistant (PA) Position

The Program Assistant is responsible for supporting regional management teams across our two programmatic regions. The main goal of the PA is to provide operational and administrative support, recruitment and outreach, Green House Call delivery and quality control. The PA will learn the various aspects of the Climate Careers program and will gain experience in youth development. This position calls for someone who thrives in a fast-paced environment and who can balance multiple priorities. The PA reports directly to the Regional Manager.
